## New Company To Operate Market Here

Cullum And Spoelstra Soon To Reopen Former Safeway Quarters

Leo W. Cullum and John E. Spoelstra, well known to Sierra Madreans, have formed a partnership and will conduct the new Sierra Market, scheduled to open during the second week in January at 58 West Sierra Madre Blvd., formerly a Safeway store, they announced this week.

In preparation for their modern meat market and grocery, Cullum and Spoelstra planned a complete remodeling of the store. Work will be started immediately after they take possession, January 1.

Entirely new equipment, modern shelving and all details of the market will be "up to the minute," the partners declared. Cases will be of white porcelain with black trim, and that color combination will be carried out in all the furnishings.

Free delivery service will be offered by the new firm, which plans to stock its shelves with a complete line of groceries as well as meats and vegetables.

"We will provide the finest possible market service in a trim, modern and up-to-date store," Cullum and Spoelstra, enthusiastically over their new venture, declared this week.

Cullum and his wife, who have two young sons, have made their home here for the past six years. Spoelstra and his family reside here until two years ago when he was transferred from management of the Sierra Madre Blvd. Safeway store to the management of the Monrovia store. ## Familiar Cry To Be Heard Saturday

Record Crowd Expected At Santa Anita Track As Racing Season Opens

The familiar cry, "There they go," will sound at Santa Anita Park tomorrow to usher in the racing season that will run until March 11.

With the opening this year coming after Christmas and with all the added seats and facilities—particularly in the clubhouse—the Los Angeles Turf Club anticipates a larger gathering than the 50,000 estimated to have been on hand last year.

The \$10,000-added California Breeders' Champion Stakes at a mile will headline the card of eight races, starting at 1 p.m., and for the holiday on Monday there will be run the \$10,000-added New Year Stakes with first post time 1:30 p.m. Thereafter there will be no racing on Sundays or Mondays.

The gates will open on Saturday at 10 a.m. to give visitors an opportunity to inspect the extensive improvements made to the racing plant this year. The enlargement and beautification of the paddock gardens; the brilliant new flower displays in the infield; the substantial additions to the clubhouse and the various other major changes made from other years promise to provide interest and pleasure for the racing enthusiasts.

To facilitate the handling of the crowds, the surfaced auto parking area has been increased to 155 acres with room for some 22,000 cars and new batteries of entrances and exits have been put in.

## City Finally Has Legal Zoning Law

Council Adopts Land Use Plan Regulating Building Activities

Sierra Madre's first legal zoning ordinance will become law a week from today following the city council's action Wednesday in finally adopting the planning commission's land use plan. Full text of the ordinance and a map showing the various zones is published elsewhere in this issue of THE NEWS.

According to Mayor William J. Schiltz, rest homes and sanatoriums will be regulated in a way thought out plan later.

Property owners directly below the Wistaria Vine parking lot, represented by Rudolph R. Hartman, asked the Council to discontinue the use of a storm drain under West Carter avenue, between Hermosa and Lima streets. The water should be directed via the Wilcox Road channel into Carter avenue, the request stated.

Removal of two trees located at the entrance of the Church of the Ascension driveway, which were hazards, was ordered. Approval was given installation of a street lamp on the first pole west of the Arcadia line on the south side of Sierra Madre Blvd. Unanimous approval was given to small salary increases for Vernon Udell, Ernest Mohler, R. Knapp, and Assistant City Engineer William Schwartz.

## Mayor Schiltz Does Good Job As Sub For Santa Claus

Delegated by Santa Claus to look after a lot of matters in Sierra Madre, you can understand that Mayor W. J. Schiltz was probably pretty tired this week. On Saturday he donned a Santa Claus costume and long white whiskers, and put in a strenuous day riding the truck with Volunteer Firemen on their toy and Christmas food basket deliveries. Then later on Christmas Eve, Mayor Schiltz acted his benign role again, presiding over the festivities at the City Park Christmas tree—where about 600 Sierra Madre children received presents of toys and candy filled stockings.

"He was with the fire-eaters 'til the last," states Fireman Jim Heasley, "and that's something."

## Float Looks Like Prize Winner

Volunteers Needed Sunday To Put 70,000 Flowers On Tournament Entry

In an old sheet iron shed on West Montecito avenue stands the grand framework of Sierra Madre's float—which bright and early Monday morning will emerge from its "cocoon" stage as a lovely flower covered entry in the Pasadena Tournament of Roses parade, and in all possibility as a prize winner.

Throughout the week a small army of willing workers headed by Mayor Schiltz has hurried to complete the city's "Seeing Nellie Home" float under-structure.

Alongside the buggy, in which "Nellie" is "seen home," dances the unbelievably lifelike horse designed by Millard Malin, sculptor. This animal, as present as perfectly proportioned as an actual statue form, will be covered with white corymbiums. The bride and trappings are to be made of blue cornflowers.

The buggy, of burgandy colored "mums, is depicted emerging from a white spider web of memory into the modern world, typifying the present day, and holding the veil-like web aside for the past. Two girls in blue satin sunsuits—Anna Sue Adwell and Kathleen McClelland.

And riding on the buggy seat, of course, will be Miss Daphne Alley and Leslie Wynne, Jr., dressed in costumes of the '90's.

Next worry of the float committee is to be sure and have enough recruits to lend a hand with the actual floral decoration of the entry—a task which of necessity must be performed Sunday. If you'd do your bit report at Dewey's studio in East Montecito avenue early New Year's morning—or any time that day.

After several weeks of effort on the part of the construction fund committee, today finds the amount raised but \$371.50, which is still substantially short of the total needed. However, Mrs. R. W. Solomon, of 657 West Grand View, has proved herself public spirited citizen No. 1 by volunteering an unnamed but substantial contribution.

In addition to previously published donors to the highly necessary fund, the following Sierra Madreans this week did their bit toward the enterprise:

Nora Mesecar, St. Rita's church; C. W. Forman, Roy Pickett; W. P. Caley, Daphne Alley; Lillian Everett, Ray Calkin, Bob Wright, Carl Hansen, John Hipper, Tom Schwartz, Lida Grant, Mrs. R. A. Pratt, Thomas Miller, Mrs. L. M. Evans, Mrs. L. L. Krebs, Mr. Girard, American Legion, Dan Lewis, Garland's Store, Dr. J. L. Woehler, Wood Lumber Co.

## Permits Send Building Over \$200,000

Three New Homes Authorized Bring Total Near Record Figure Of 1928

Up another notch went the more than \$200,000 building total, a record high already for any year since 1928, this week when a permit for erection of a new home on West Laurel avenue was granted Randall Z. Perry of 541 West Laurel.

The new six-room home will be of stucco and modern in architecture, having a double garage. Frank Hildebrandt of Arcadia is the contractor, and work will start as soon as the weather permits, it was stated this week.

Rain last week delayed progress on the new home which Harold Spears, contractor, of 649 West Grand View avenue, started building for himself at 245 North Sunnyside. The Spears home will have six rooms and a double garage, and the architecture will be modified Monterey.

Plans were being drawn this week for a five-room stucco and frame home to be built for Leon J. Rizer of Hayden Court on his recently purchased lot on Suffolk, east of Baldwin. Sale of the property, 65 by 190 feet, was completed last week.

Many permits for re-roofing homes in various parts of the city were issued this week, as the steady downpour of rain revealed weak spots here and there.

Allen Rockwell, for many years the San Pedro building inspector for the city of Los Angeles, has announced his intention of building a home at 357 East Montecito avenue.

Mrs. Jessica Wright of 265 E. Sierra Madre Blvd., took out a permit to reroof her dwelling, while Lizzie McElwain is to build an addition to her Trail Inn cafe at 165 East Mira Monte. Other permits issued were to Daisy Hawks, 38 E. Grand View, for re-roofing a garage, and to James Sinnott, to reroof his dwelling at 274 West Laurel avenue.

Forty out-of-town guests will attend a gay costume party and midnight buffet supper given by Mr. and Mrs. Fred Krinke and Councilman John Froehlich of 145 West Carter avenue.

Mr. and Mrs. F. L. C. Roess will view the Tournament of Roses from the home of Mr. and Mrs. Glen McKay on Green street, Pasadena, where they will enjoy a dinner to which all guests will contribute a prepared dish.

Mr. and Mrs. R. H. Sundberg of San Diego will enjoy New Year's dinner and the races at Santa Anita as guests of Dr. and Mrs. W. H. Scoins.

Members of the Antelope Country Club and Sierra Madre friends will be guests of Mr. and Mrs. M. Penn Phillips at a large New Year's Eve party at their home at 200 Monterey Lane.

## Extension Of Mt. Trail Is Threatened

Property Owner Gives Notice Right Of Way Will Be Contested

Plans of the city for immediate extension of Mt. Trail avenue from its present dead-end at Lowell street south to Orange Grove avenue, were threatened this week as the city's legal ownership of right-of-way easements through the orchard property of Raymond Arbutnot was challenged.

Attorney J. P. Wood, acting for Arbutnot and his wife, declared that the city's professed right-of-way has been outlawed by the statute of limitations, inasmuch as the improvements placed upon the land have been maintained for over 50 years without any action toward title by the city.

Arbutnot's chief objection to street construction is that the east portion of his citrus orchard would be cut off from the main irrigation system, and that 64 bearing lemon trees would be destroyed.

Councilman Tom Schwartz said yesterday that the proposed street extension would act as a natural drainage channel to relieve conditions which have caused Charles Washburn to threaten suit against the city if flood waters overflowed the present ditch draining the Lowell-Suffolk-Sierra Place area.

## THE NEW YEAR

Sunday a new year dawns.  
With it new hopes rise — hope  
that 1939 will be a happier year  
for all the world and its peoples.Looking back at the year that  
is leaving the calendar to take  
its place in history's niche, man  
sees much that he regrets. Look-  
ing ahead at the new horizon of  
hope, he wonders what lies be-  
yond that horizon.In reality there is only a void  
beyond. There is nothing there  
awaiting man's arrival. What will  
be created or transpired beyond  
that horizon will be achieved by  
man. Whatever is written in the  
new chapter of history will be  
written by him. In other words,  
1939 will be just what man  
makes it.There can be no better New  
Year's resolution than to cross  
this horizon with a determined  
spirit of good will toward fellow  
men. If too many people don't  
break that simple resolution, 1939  
will indeed be a happier year for  
all the world and its peoples.Case and  
Comment

By Charles B. Showalter

THE world moves, and time  
marches on—with an ever  
increasing tempo, or so it  
seems to one who has passed the  
meridian and is marching  
toward the setting sun.January 1, 1939, is just another  
mile-post in the onward march  
of time. To impatient youth the  
posts are far apart, and a year  
is a long time, but as we grow  
older the mile-posts grow closer  
and closer together and we be-  
come less sure of accomplishing  
all that we plan to do.The end of the old year and the  
beginning of the new is an ap-  
propriate time to take inventory,  
to check up the past year's re-  
cord and map plans for the days  
to come.The Chinese have a very prac-  
tical and interesting custom of  
paying all debts on New Year's  
day, or if they can't pay, write  
them off and begin with a clean  
slate. Such procedure would  
help some of us here in America  
—well, considerably.The old year is dying, and  
there will be little regret. For  
the world has suffered much and  
learned little. Old 1938 has not  
treated us very well and we  
should be glad it is over.Perhaps the most distressing  
and disheartening "sign of the  
times" is the loss of freedom of  
the individual throughout the  
world. And America has not en-  
tirely escaped the infection. Much  
of the world has forsaken the  
"forward look." They have turned

## AT LONG LAST

Poor Richard  
said:If time be of all things the  
most precious, wasting time must  
be the greatest prodigality.Watch your step, men! What  
has happened in Albany, Calif.,  
can happen elsewhere. A new city  
ordinance makes it a misdemeanor,  
punishable by a \$300 fine and  
60 or 90 days in jail, to make a  
false report to the police. It  
seems that too many husbands  
have been reporting "robberies"  
instead of admitting to their  
wives that the holes in the pocket-  
book came from gambling losses.  
Even the most obstinate and pro-  
fligate of erring husbands must  
now admit it pays to tell the  
truth. There's that ordinance to  
prove it!ECONOMIST SAYS 1939 CAN BE  
MADE A PROSPEROUS YEARBy RALPH H. TAYLOR  
(Executive Secretary, Agricultural  
Council of California)IT is a happy characteristic of  
mankind, at the start of a  
New Year, to push aside the  
difficulties and disappointments  
of the year just gone and to dip  
into the future—with new hope,  
new dreams and a sublime con-  
viction that there's a rainbow  
around the corner!It is a period of new optimism  
and father-to-the-wish forecasts  
of better times ahead. But it is  
also a time for balancing books  
on the old year, realistically re-  
viewing mistakes—and planning,  
with new courage, to profit in  
the future by the errors of the  
past.The year 1938, from the stand-  
point of agriculture, left much to  
be desired. California crop re-  
turns, according to the best in-  
formation available at this writ-  
ing, averaged 27 per cent less  
than returns of the preceding  
year, with some major crops  
dropping as low as 46 percent  
below the 1937 level.Nationally, cash income from  
farm products marketed in 1938  
(including government payments)  
reached approximately \$7,500-  
000,000, according to estimates of  
the United States Bureau of Agri-  
culture Economics. This com-  
pares with \$8,600,000,000 in 1937  
and \$7,944,000,000 in 1936.  
Any attempt to forecast what  
the New Year, 1939, will mean to  
California agriculture must, in  
large part, be conditioned on what  
the future holds for business and  
industry.Overshadowing all problems  
within the industry is the problem  
of national recovery. If business  
and industry, government and  
labor find a better basis for mu-  
tual cooperation—if all America  
finally starts pulling in harness  
toward a common objective—then  
it can be safely forecast that  
both city income and farm in-  
come will start climbing back  
toward normal levels.Rash, indeed, would be the pro-  
phet who would predict that 1939,  
however, will be free from tur-  
bulence and our responsibility.A very practical New Year's  
resolution would be — to dis-  
charge that responsibility in full.  
And "A Happy New Year."THE POCKETBOOK  
of KNOWLEDGE BY TOPPSThe Marriage  
ProblemBy JESSE LYNCH WILLIAMS  
Author of "Why Marry?" and "The  
Married Life of the Frederick Carrolls"Marriage Will Increase, Not  
DiminishTHERE are radicals who say, and  
even believe, that in the future  
there will be no such nonsense as  
marriage at all. There are con-  
servatives who say, and try to be-  
lieve, that in the future there will  
be no change in marriage whatever.  
Both, of course, are wrong. They  
are merely voicing their preferences.  
That is all most of us use, our  
minds for, anyhow—as mere accom-  
plishes to our prejudices and desires.  
So long as we have not only the  
mating instinct but the gregarious  
instinct, we shall have to have an  
organized society. And so long as  
we have an organized society we  
shall have to have some rules and  
regulations for the control of  
mating.So marriage we shall always have  
with us. In fact, in the future, in  
my opinion, there will be more mar-  
rying than ever; and, instead of no  
marriage at all, there will proba-  
bly be at least two different kinds.I will touch on that again. But,  
first, before we look into the future,  
we must take a glance at the past  
in order to understand the pres-  
ent. There is already today a tre-  
mendous change taking place in  
marriage right under our very eyes.  
Though some of us are not aware  
of it, because, as yet, this change  
has not been incorporated in the  
rules and regulations of the game.Sex has always been a bit of a  
puzzle to civilization, a problem  
which it has never satisfactorily  
solved, and probably never will.We no longer regard the love of  
man and woman as an unfortunate  
weakness. Just as a plain, unromantic  
matter of scientific fact.The old view of the matter is  
now considered not only unworthy,  
but as a kind of blasphemy against  
the Creator, who knew what he was  
doing when he made these arrange-  
ments for life and the continuance  
of it.In fact, in modern times the re-  
actionary view of love as something  
purely, or impurely, physical is sel-  
dom proclaimed, except by re-  
actionary young writers, who strange-  
ly enough, consider themselves ad-  
vanced.The other and still more notable  
revolution which is taking place in  
modern marriage, and will be a  
tremendous factor in determining  
the new marriage forms of the fu-  
ture, is due to what is called birth  
control or voluntary parenthood.This matter is still in a controver-  
sial stage. The moral issue involved  
does not concern our predictions as  
to the future of marriage.In the future there will be a suf-  
ficient number of childless mar-  
riages to be regarded as the estab-  
lished habit of such a large class  
that special laws will be required  
for them.Let us see what will happen. As  
matters are arranged today, youth  
is the time for love, but not for  
marriage. All of the forces of na-  
ture say, "Come!" All of the forces  
of civilization say, "But you  
mustn't!"In the high tide of youth comes  
the natural mating time, and it is  
the actual mating time in all forms  
of life except the highest. Among  
professional men, for example, the  
average marrying age is nearer forty  
than twenty.The evils and misfortunes of this  
state of affairs need no expansion;  
they suggest themselves. Besides,  
we see them all about us. In the fu-  
ture I see young people marrying at  
the natural age.Now the corollary to early mat-  
ing is undoubtedly a considerable  
amount of mismatching, and, there-  
fore, remating. That will be unfor-  
tunate but inevitable. Easier mar-  
riage must mean easier divorce. Re-  
grettable but true.As for the family marriage, there  
will always be plenty of couples who  
desire children. Pessimists need  
never fear in regard to that.Parenthood will be regarded as  
such an important privilege that it  
will be limited to a few, and they  
the fittest.And that does not mean merely  
the physically fittest, but also the  
mentally and temperamentally most  
fit.In short, we shall have an aris-  
tocracy of parenthood, and it will  
be the greatest aristocracy and the  
only sound one the world has ever  
known.

Taxes levied on property by  
the county schools, and special  
districts of Los Angeles county  
in 1938-39 were \$85,839,283, an  
increase of \$27,856,971 over the  
levy of \$57,982,312 for 1934-35,  
according to a study of county  
tax levies recently completed by  
California Taxpayers' association.  
The study included the taxes  
levied by the county, schools, and  
special districts in the county, but  
did not include the taxes levied  
by the cities within the county.The levy for 1937-38 in the  
county was \$81,973,548. Taxes  
levied by the county for current  
purposes went from \$25,743,208  
in 1934-35 to \$39,759,270 in 1938-  
39. Local property taxes levied  
for the school districts in the  
county totalled \$16,477,667 in  
1934-35, and went to \$31,163,998  
in 1938-39.Of more than 4½ million visi-  
tors who went to the national fore-  
sts of the State for recreation  
last year 14 per cent, or 630,000  
people, came for winter sports.Japan has revised her time  
schedule. She is now going to  
give China five more years to  
live. Or in other words, Chinese  
opposition, strengthened by a fiery  
tide of nationalist spirit is prov-  
ing extremely difficult to beat  
down. Where Chinese armies have  
been driven back, guerrilla bands  
have taken their place to disor-  
ganize the enemy's lines of com-  
munication and supply, and di-  
minish severely the glory of  
Japan's victories. Impartial ob-  
servers last week reported that  
those victories look far more im-  
pressive on paper than they do in  
fact. Of Hope's 130 districts, the  
Japanese control but 13, of  
Shansi's 105 districts they hold  
31, and of Shantung's 109 they  
have subdued only 30. We wonder  
if it is really Japan who is going  
to give China five more years to  
live!The discharged WPA employee  
who attacked Mayor LaGuardia  
the other day may have been  
either a disgruntled worker or an  
infuriated Nazi. In either event  
it was natural for the Nazi-con-  
trolled German press to cheer the  
attacker. The assailant was six  
inches taller and 30 pounds heav-  
ier than the pugnacious little  
mayor he knocked down. These  
are the approved tactics of Nazi  
mobsters in Germany, and where-  
ever else they have gotten pow-  
er. It was only to be expected  
that Berlin's dictator-controlled  
press should endorse the dicta-  
tor's idea of "fair play."

## What A Girl Sees Ramblin' 'Round

WERE a philosopher now... What we thought was grief is really joy... and we're \$8.80... plus 10 centimes mailing charge... ahead of the game... Meaning that our application for two \$4.40 seats for the Rose Bowl game... plus 10c mailing charge... was returned to us with announcement "sold out." We were in tears until we saw the other day where 47 of the country's

leading football experts and sports writers picked what they considered the one, two, three collegiate teams during the season that closed Thanksgiving Day... There were ten teams mentioned in the list and nowhere... by any expert... was either of the teams that will play in the Rose Bowl given a tumble... So, the famed bowl will evidently have a fifth or sixth rate game and we have our \$8.80 plus postage... And so many people we meet feel the same way about it, and wonder why the universities that are supposed to inculcate the better things of life into their students can set a bad example by being rank racketeers... By and large we think they do,

but some of the volunteer firemen seem to think they don't "live right"... Else why, they argue, should a fire alarm come in at 6:05 in the morning... why wait the few minutes after six? It continues to be a hot topic at the fire station... that brush fire on Grand View avenue a couple of weeks ago when the siren sounded at five minutes past the payoff hour... We've heard some of the fellows griping about it ever since... Now we learn that the volunteers get \$4 per man for those who answer alarms between 9 p.m. and 6 a.m. Sorta like having a \$4 horse come in fourth and a \$4 note just before Christmas would come in pretty handy.

Some times we feel frightfully heathenish when we go off on a jaunt or to some amusement of a Sunday after a hard week's drilling at the office as we did Sunday evening, coming home from the big professional football game at Gilmore stadium in L. A. ... We had walked down a couple of blocks of Main street... the L. A. Bowery... through the cosmopolitan crowds flocking into cheap shows that must have been lots less lewd than their posters and barker's announced as the new, smooth-riding red car was bringing us home we were contemplating the abandon of the period and being very pious about our own shortcomings in the matter of church attendance... "My dear, don't you know that there are not and never have been any morals in Hollywood since the movie people came," an excited dowager was saying to a woman of about her

## Revelers To Greet The New Year At Legion Ball

Revelers will gather again at Pasadena Civic auditorium ballroom to welcome in a new year, for on Saturday night the East Pasadena Post of the American Legion will give its eighth annual New Year's Eve ball for the benefit of War Veterans.

Charles Ragan, general chairman of the ball, announced no effort or expense will be spared to create a "mammoth carnival" for the many who plan to see the New Year in with the East Pasadena Legionnaires. An abundance of confetti, horns and streamers will be released at the stroke of midnight. Dancing will start at 8:30 p.m. and continue until 1 a.m.

Ben Pollack's 14-piece ballroom and motion picture orchestra will furnish music, and the auditorium will be elaborately decorated. Proceeds of the New Year's Eve ball each year finances the dinner given on the following day for 100 War Veterans from San Fernando Hospital who also attend the Tournament of Roses as guests of the post.

## Cop And Bootblacks Have A Real Jolly Old Christmas

Three little boys and one small girl spent the holiday weekend partying and having a grand time as the guests of Mr. and Mrs. Albert Bray. The round of merry-making started Christmas eve with distribution of gifts at the Bray home. The next afternoon, Christmas day, the youngsters were taken to a Pasadena theatre by Mrs. Bray. After the performance Mr. Bray picked them up in his automobile and brought them to the family home in Sierra Madre where mouth watering odors of turkey, dressing and all the rest of the traditional Christmas dinner greeted them. The remainder of the evening was spent consuming the delicacies and the small folk returned to their homes happy and gay.

Mr. Bray, who is busily occupied seeing to it that Sierra Madreans mind their P's and Q's, and drive carefully through holiday traffic, was given visible proof of the friendship of boot-black boys in the city when they presented him with a Christmas gift. It was a fountain pen which will receive constant use by the genial police officer.

Mrs. Edward Gray of 252½ East Grand View avenue was one Sierra Madrean who did not enjoy a gay Christmas. The reason was a very, very sore mouth, the aftermath of trips to a dentist and jaw scraping. Mrs. Gray is around the city again, practically recovered.

own age as they boarded our car at Lamanda Park Junction... During the remainder of the trip home we learned that these two women had been discussing Hollywood's latest triangle scandal which resulted in the shooting of one man by another... you know, the old... age old stuff. If these Hollywood folks had been church-goers this latest scandal and endless others in the movie capital would not have happened... they agreed... And before we left the car we learned from their conversation that had attended... on Sunday evening, a picture show advertised as one of the most daring and risque that Hollywood ever turned out... Our conscience bothered us less after that and we slept well.

An old San Francisco friend, now a department buyer for a big-time store, gave us a lesson in the value of newspaper advertising we shall never forget. Ten days ago she showed us the skeleton of an ad her firm would put out... wonderful values... well considered and prepared ad copy... We dined with her then watched a late afternoon and evening rush on that merchandise that we wouldn't have believed possible...

## FIRE FLAMES

By One of the Boys

WE HEAR that "Kumrad" Norris has ambitious plans for the fire drills. If he gets his idea across we can expect to pull plenty of hose and use water at all drills—and get hose to the trucks if "Kumrad" during the past two or three years that we are liable to be stale at the art of fire fighting. It is very easy to forget the location of a fire plug and the section of the city in which a certain number is located. Though the drill idea meets with the approval of many of us, some fear that much time will be taken up in returning many lengths of hose to the trucks if "Kumrad" is not watched.

It was good to see Vern Udell and Bob Newbery aiding Santa Claus in delivering the toys on Saturday. They certainly put the toys in shape at the toy shop. These two fellows spent many hours on the job and did a lot of mechanical work that most of us would not have been able to even start.

And now since the Christmas activities are over, the firemen will turn their hands to assist in getting the Rose Tournament float ready for New Year's parade. After watching the progress of the float, we'd say it will require the hands of many people to complete it. The building of the frame could only be done by very skilled mechanics, among whom are some of our local carpenters. These men are giving a lot of their time to the work. The float will be one that we can well be proud of. Let's volunteer to help where we can.

No matter how hard we try, it happens that each year we fail to get in the names of all the needy and some are missed when the baskets are filled. Names keep coming in all day and some the following day. This is expected, so on Sunday morning, Vern Udell, George Norris, Bob Newbery and Joe Swanson appeared at the station and as the names of someone who had been missed came in, these fellows arranged and delivered baskets.

Visitors at the home of Mrs. R. O. Caukin Tuesday who in company with their hostess enjoyed a motor trip to neighboring points of interest climaxed by a visit to the Wistaria Vine Gardens, were Mrs. Guy Wiggins and son Guy Arthur Wiggins who recently arrived from the east; Miss Dorothy Wiggins, Mrs. Grace Huntington and Mrs. Pearson B. Miller.

### BRIDE MAKES VOWS WITH FAMILY HEIRLOOM

**B**EFORE a large group of relatives and friends, Miss Asenath Hall Kinneer was married to Robert Thornton Young, Monday, December 26th at 4 o'clock in the afternoon at the Congregational Church. Rev. Arthur O. Pritchard performed the double ring ceremony in which the bride and groom said part of their own service.

The bride who was given in marriage by her father, Charles W. Kinneer, wore a white taffeta princess gown trimmed with white velvet and a finger tip veil held in place by a small off-the-face hat of the same material as her gown. She carried a show-er bouquet of white cyclamen and bowardia and wore a gold locket which had been worn by her mother at her wedding. Her ring was fashioned from that of her paternal grandmother. The bride's attendants were Miss Margaret Kimmell of Pasadena, maid of honor, and Miss Margaret Kelly of Tarkio, Missouri. Both wore green taffeta gowns with full hoop skirts trimmed with matching velvet ribbon and carried bouquets of poinsettias.

Mrs. Charles Kinneer, mother of the bride, was gowned in a teal blue dress and wore navy

blue accessories. Mrs. Dean L. Young, mother of the groom, wore a burgandy gown with navy blue accessories.

Robert Main of the University of Redlands acted as best man for Mr. Young. Ushers were Wil-lard Young, brother of the groom; Dr. Layton Roberts of Whittier and Maxwell Pash, both brothers-in-law of the bride, and Randolph Twycross. Raymond Moreman, music director of the First Congregational Church of Long Beach and cousin of the bride's mother, played the wedding march from Lohengrin.

Woman's Club  
Notes

A LARGE and appreciative audience attended the meeting of the Sierra Madre Woman's Club Wednesday and responded enthusiastically to the program presented by Marcel Lamour, who directs the French Club each Monday afternoon at the clubhouse. Those appearing on the program were Vera Radcliff, well-known soprano of opera and radio, who sang a group of French numbers and closed her part of the program with "The Cuckoo" by Lisa Lehmann, which was well received. Miss Radcliff was accompanied by Richard Cummings. Also appearing were Dorothy Babb of the Nico Charisse School of the Ballet who is appearing currently in the motion picture version of "You Can't Take It With You" and Alice Cavers of the same school, also known to motion picture audiences.

The club meeting was opened by Mrs. Al Myers who following the reading of the minutes called upon Mrs. L. Godolphin, ways and means chairman, to explain plans for a "come as you are" tea to be given by several of the club.

women at their homes sometime in January as a benefit for the club.

Plans were also made for members of the garden section to visit the Huntington Gardens on January 18. Inclement weather which retarded the blooming of the aloes there necessitated postponement of the visit which had been announced for this month. Mention was also made of the problem which confronts every garden lover and property owner in the city who does not wish to have vacant property a black smudge on the face of the community every fall because of the burning of weeds and grass.

Following the program presented by the French group, Mrs. E. H. Cocke gave an interesting talk on civic improvements which she saw in the larger eastern and middle western cities during her recent eastern trip. After luncheon Mrs. W. J. Lawless spoke of civic beautification in South American countries.

Husband To Operate  
Lizzie's Trail Inn

Mrs. Ed. McElwain, familiarly known as "Lizzie" of Lizzie's famed Trail Inn, located at 165 East Mira Monte avenue, at the foot of Mt. Wilson Trail, is ill at her home. During her absence Mr. McElwain is acting as manager. "Lizzie" is known throughout the state for her chicken and ravioli dinners and has established another record—that of 14 years of operation with only one month closing. Her many friends in Sierra Madre wish her a speedy recovery, pending which her husband has applied to the State Board of Equalization for a transfer of the permit to continue the sale of beer and wine at the inn.

fresh as the air in which they  
grew—the clean atmosphere  
of this natural gas region

One big attraction in Southern California is the Tournament of Roses—and another is certainly the clean atmosphere!

For, everything—from clothes to houses—stays cleaner when chimneys are smokeless. And there are no smoky chimneys in homes that use gas for all heating needs.

In well-adjusted modern appliances this fuel gives immaculate

service whether you are using the most intense heat or just a tiny "bead" of flame.

And remember, gas brings you a number of advantages in addition to cleanliness. Two of its major qualities are convenience and very low cost. Make your New Year happier with a modern all-gas kitchen!

## Swank New Station Boosts Business For Steinberger

Spic and span and shining with white paint, the new Standard Service Station, 115 West Sierra Madre Blvd., will open Saturday, although the official grand opening date has not yet been announced. Painters and cement layers are busy putting on the finishing touches to the large, new, streamlined service station, an \$8,000 improvement job.

Standard Service is an independent station, and all equipment, general operations, etc., meet with the regulations set by Standard Stations, Inc. The building is designed in the new approved Standard style, with a double canopy arrangement over both drives.

Everything is new, and when you stop in, pay particular attention to the fully enclosed lubrication department—that's another very modern idea. The automotive computing pumps are the pride and joy of the station attendants. A modern office shelters records, books and all the information that goes toward making a service station successful. Modern rest rooms are located in the main building.

At Temple Beth Israel the New Year will be welcomed tomorrow night with a gala turkey dinner and dance, open to the public and given as a benefit for the Jewish National fund.

The clever miss who is ready for chilly evenings with her Vanity Fair  
Bals and Tucks doesn't have to wait until bedtime to get into them.  
The generous cut of these garments and their vivid colors make them

most comfortable sleeping garments in the world makes them utterly  
cozy to relax in, too. College girls adore them. These lovely cotton

## The Marriage Problem

By JESSE LYNCH WILLIAMS  
Author of "Why Marry?" and "The Married Life of the Frederick Carrolls"

Marriage Will Increase, Not Diminish

THERE are radicals who say, and even believe, that in the future there will be no such nonsense as marriage at all. There are conservatives who say, and try to believe, that in the future there will be no change in marriage whatever.

Both, of course, are wrong. They are merely voicing their preferences. That is all most of us use our minds for, anyhow—as mere accomplices to our prejudices and desires. So long as we have not only the mating instinct but the gregarious instinct, we shall have to have an organized society. And so long as we have an organized society we shall have to have some rules and regulations for the control of mating.

So marriage we shall always have with us. In fact, in the future, in my opinion, there will be more marrying than ever; and, instead of no marriage at all, there will probably be at least two different kinds.

I will touch on that again. But, first, before we look into the future, we must take a glance at the past in order to understand the present. There is already today a tremendous change taking place in marriage right under our very eyes, though some of us are not aware of it, because, as yet, this change has not been incorporated in the rules and regulations of the game.

Sex has always been a bit of a puzzle to civilization, a problem which it has never satisfactorily solved, and probably never will.

We no longer regard the love of man and woman as an unfortunate weakness. Just as a plain, unromantic matter of scientific fact.

The old view of the matter is now considered not only unworthy, but as a kind of blasphemy against the Creator, who knew what he was doing when he made these arrangements for life and the continuance of it.

In fact, in modern times the reactionary view of love as something purely, or impurely, physical is seldom proclaimed, except by reactionary young writers, who strangely enough, consider themselves advanced.

The other and still more notable revolution which is taking place in modern marriage, and will be a tremendous factor in determining the new marriage forms of the future, is due to what is called birth control or voluntary parenthood.

This matter is still in a controversial stage. The moral issue involved does not concern our predictions as to the future of marriage.

In the future there will be a sufficient number of childless marriages to be regarded as the established habit of such a large class that special laws will be required for them.

Let us see what will happen. As matters are arranged today, youth is the time for love, but not for marriage. All of the forces of nature say, "Come!" All of the forces of civilization say, "But you mustn't!"

In the high tide of youth comes the natural mating time, and it is the actual mating time in all forms of life except the highest. Among professional men, for example, the average marrying age is nearer forty than twenty.

The evils and misfortunes of this state of affairs need no expansion; they suggest themselves. Besides, we see them all about us. In the future I see young people marrying at the natural age.

Now the corollary to early mating is undoubtedly a considerable amount of mismatching, and, therefore, remating. That will be unfortunate but inevitable. Easier marriage must mean easier divorce. Regrettable but true.

As for the family marriage, there will always be plenty of couples who desire children. Pessimists need never fear in regard to that.

Parenthood will be regarded as such an important privilege that it will be limited to a few, and they the fittest.

And that does not mean merely the physically fittest, but also the mentally and temperamentally most fit.

In short, we shall have an aristocracy of parenthood, and it will be the greatest aristocracy and the only sound one the world has ever known.

Taxes levied on property by the county schools, and special districts of Los Angeles county in 1938-39 were \$85,839,283, an increase of \$27,856,971 over the levy of \$57,982,312 for 1934-35, according to a study of county tax levies recently completed by California Taxpayers' association. The study included the taxes levied by the county, schools, and special districts in the county, but did not include the taxes levied by the cities within the county. The levy for 1937-38 in the county was \$81,973,546. Taxes levied by the county for current purposes went from \$25,743,208 in 1934-35 to \$39,759,270 in 1938-39. Local property taxes levied for the school districts in the county totaled \$16,477,667 in 1934-35, and went to \$31,163,998 in 1938-39.

Of more than 4 1/2 million visitors who went of the national forests of the State for recreation last year 14 per cent, or 630,000 people, came for winter sports.

Japan has revised her time schedule. She is now going to give China five more years to live. Or in other words, Chinese opposition, strengthened by a fiery tide of nationalist spirit is proving extremely difficult to beat down. Where Chinese armies have been driven back, guerilla bands have taken their place to disorganize the enemy's lines of communication and supply, and diminish severely the glory of Japan's victories. Impartial observers last week reported that those victories look far more impressive on paper than they do in fact. Of Hopei's 130 districts, the Japanese control but 13, of Shansi's 105 districts they hold 31, and of Shantung's 109 they have subdued only 30. We wonder if it is really Japan who is going to give China five more years to live!

fresh as the air in which they

of this natural gas region

One big attraction in Southern  
California is the Tournament of  
Roses—and another is certainly the  
clean atmosphere!

For, everything—from clothes to  
houses—stays cleaner when chim-  
neys are smokeless. And there are  
no smoky chimneys in homes that  
use gas for all heating needs.

In well-adjusted modern appli-  
ances this fuel gives immaculate

service whether you are using the  
most intense heat or just a tiny  
"bead" of flame.

And remember, gas brings you a  
number of advantages in addition  
to cleanliness. Two of its major  
qualities are convenience and very  
low cost. Make your New Year hap-
